HARD SURFACE DISINFECTANTS

ECOZONE AGRI

Based on its Perasethic acid ingredients, it destroys the bacterias, virusses, yeast, fungus and spors on the hard surfaces. It can also be used via the irrigation line for the disinfection purpose of all the growing substrates.

Active Ingredient : 34% Hydrogen Peroxide
: 20% Asethic Acid
: 15% Perasethic Acid
Dosage : 2,5%
Packing Weight : 21Kg

Hpa Plus that has a wide range of affectivity even in small dosages, dissolves to oxygen and water biologically doesn't cause any corroison thus is very environmental friendly surface disinfectant. It is effectice against microorganisms and also can easily demolish the cell protein wall and fat grain as an oxydan agent. Thus, reaching the cell nucleoid, it destroys the DNA and RNA of the cell. This also prevents the microorganisms to develop a counter resistance.

Active Ingredient : 15% Isopropyl Alcohol
: 15% Alchol Benzen Sulphonic Acid
: 15% Hydrogen Peroxhyde
: 5% Salysilic Acid
: 10% Binding Enzymes
Dosage : 0,10% ila 2,5%
Packing Weight : 5 Kg

MAESTROWIN HPA PLUS

MAESTROWIN 50

A general purposed disinfectant that is effective against all the microorganisms, owing to its ammonium compounds (QAC).

Active Ingredient : 15% QAC (alkyldimethylamoniumchlorur,)
Dosage : 3%
Packing Weight : 20 Kg

Vet Guard FT2 has a wide effective range disinfectant involving glutaraldeyde and 4 pcs in a row ammonium compounds. It is effective against all micro organisms. It has a life cycle more than 20 hours thus stays in the applied area preventing the micro organisms to reproduce.

Active Ingredient : 12% Glutaraldehyde
: 10% QAC (alkyldimethylamoniumchlorur,)
Dosage : 0,5% ila 1%
Packing Weight : 20 Kg

VET GUARD FT2

ECOZONE MAX

It behaves as an affective disease preventive on behalf of its acid and phosphorit compounds Its usage especially over the root area and against virus is really affective.

Active Ingredient: 20%Hydrogen Peroxide
: 30%Asethic Acid
: 15%Sulphuric Acid
: 5% Phosphonit
Dosage : 2,5%
Packing Weight : 5Kg

HARD SURFACE DISINFECTANTS

ECOZONE NRS

It is a product that you can get effective results against viruses when used for the greenhouse disinfections on behalf of its lactic acid ingredient.

Active Ingredient : 20% Lactic Acid
Dosage : 0,25 % ila 0,50%
Packing Weight : 5Kg

It is based on active oxygen and has hydrogen peroxide. It has an antiviral, bactericidal, fungicidal and sporocidal effects. It is a stable and non-smelling product. It is not toxic and doesn't leave any residue. It is not, corrosive.

Active Ingredient : 50% Hydrogen Peroxide
0,036% Silver Colloidal
Dosage : 0,06% ila 2,50%
Packing Weight : 20 Kg

NANO 50

GALOX AZUR

It is used on all the hard surfaces and all the equipments disinfection including even the food and any farms' industries. Its usage in the foot disinfection pools is available.

Active Ingredient : 50% Gluteraldehyde
0,036% QAC (alkyldimethylammonium-chlorur,)
Dosage : 0,5% ila 2,50%
Packing Weight : 20 Kg

It involves hydrogen peroxide and based on active oxygen. It is not corrosive and effective against all the pathogens. It is stable and colorless also doesn't form disturbing smell and taste. It is not toxic and eco friendly. Its effect power continues on both cold and also hot environments.

Active Ingredient: 50% Hydrogen Peroxide
0,048% Silver Colloidal
Dosage : 0,6% ila 2,5%
Packing Weight : 25 Kg

SPOREXALIN AG

CALGONIT VIROFLEX

It is a highly effective, wide range usage purpose disinfectant. It is applicable on all the hard surfaces, equipment water and air systems. Its surfactants' ingredients give a high level performance.

Active Ingredient: 50,5% Potassium Peroxymonosulfate
15% Sulfamic acid
3% Sodium
25% Sulphuric Acid
Dosage : 1%
Packing Weight : 5 Kg ve 10 Kg

HARD SURFACE DISINFECTANTS

ECOZONE ACIMAX

It is used to open all the blocked/clogged in the watering lines via eliminating the biofilm layers, lime and fertilizer residues owing to its acydic formation. It destroys all the micro organisms in the watering lines.

Active Ingredient : 40% Nitric Acid
: 10% Phosphoric Acid
: Inhibitor Agents and Other Shredding Phenols
Dosage : 3,5%

Packing Weight : 25 Kg

It easily cleans all the dirt and residues owing to its active ingredients when used for the irrigation system lines and filter cleanings with its alcaly structure.

Active Ingredient : 20% Sodyum Hidroksit
: 30% Sodyum Hipoklorit
Dosage : 10 pH Solüsyon
Packing Weight : 23Kg

ECOZONE 441 KOSTİK

SANİMED BIO 70

HAND DISINFECTANT

Isopropyl alcohol ingrediented hand disinfectant available for hand Rubbing.

Active Ingredient : 70% Propan-2-Ol
(izopropyl)
< 1 % Hydrogen Peroxide
Dosage : Pure Packing

KLOR BAZLI DEZENFEKTAN

KLOR BAZLI DEZENFEKTAN

Etken Madde İçeriği
Sodyum Hipoklorit:
Ambalaj Ağırlığı : 25
Dozaj : 5%

FORMALDEHİT

STANDART RANGE DISINFECTANTS

Active Ingredient: 37% Fomaldehit
: 20% Metanol
Packing Weight : 65 Kg
Dosage : 5% - 20%

HİDROJEN PEROKSİT

STANDART RANGE DISINFECTANTS

Active Ingredient: 50%
Hidrojen Peroksit
Packing Weight: 65 Kg
Dosage : 5% - 20%
